

IUSB Chapter  
of the  
Association for  
Computing Machinery

Remy Evard

Supercomputing on LINUX clusters at Argonne  
National Laboratories

Thursday, April 18<sup>th</sup>, 1:00pm

SAC 225

Mr. Evard is the Manager of Advanced Computing Technologies and Networking for the Mathematics and computer science divisions of Argonne National Laboratories. His research deals mainly with scientific computation on supercomputers, especially with advanced visualization and high-performance networking.

Mr. Evard is a member of the President's Information Technology Advisory Committee (PITAC) and is active in USENIX's LISA efforts.

Light refreshments will be served prior to the lecture.
